

INTENT TO RUN

My name is Iyanu; I am a junior pursuing a Bachelor of Science degree in Business Administration with a concentration in Management and Economics. I am running for the Student Government Association Vice President position because I am interested in the school, its activities and the administration of the student body. I believe I would be a great asset to the SGA because I would be able to contribute to the decision making of the student activity on campus. I am currently a member of the Student Government Association (SGA) Senate. During this period of serving as a senate member of the SGA I have learned a lot of things. This SGA tenure in particular has been very enlightening in a way that some people might describe as weird. I have learned how intoxicating power can be. Besides, every government institution is very similar regardless of the level of the government institution. That is why I believe it is very important to always remind ourselves why we pursued a position in the first place. I believe my experience with the SGA as a semester this semester makes more aware of the need of the students and what they value as far as being a part of the great institution. I am very organized, considerate and a good listener. I believe that as the Vice President these qualities will be very important in promoting the interest of the student.

STATEMENT OF GOALS

During 2007- 2008 school year there has been various chaos and division amongst the Student Government Association Cabinet that has spilled over to the student body as a whole. The students have felt like their interest has not been protected accordingly by those they have elected as representatives. As the Vice President of the SGA, I hope to be able to change this and give the student a reason for unity and strength again. I hope not to take my eyes off the course; 'the why behind pursuing this position in the first' and I believe that in doing so I would be able to be a good representative of the students as effectively as possible. I am willing to work with fellow students of the governing body, to make well thought decisions for the students of this great college. As a student representative in the Student Government Cabinet; I will always be a good ambassador of the college as I represent the students both on campus and off campus.

I believe my duty as the Vice President of the Student Government would involve but not limited to presiding at all Senate Cabinet and SGA meetings, be in charge of administration and operation; plan, organize, coordinate and supervise the SGA student services program; review and recommend appointments of candidates; assist SGA staffs and officers as needed and encourage all students to participate in all campus activities, program, and committees.
